Please legibly PRINT SIGNATURE NAME and TITLE

REQUIRED SUBMITTALS

- APPLICATION** – Must be **completely filled out** including tax map numbers, and current and proposed uses of property/properties and must be signed by the property owner(s) or legal representative(s).
- SHORT ENVIRONMENTAL FORM** – Must be completely filled out (side one only) and signed.
- MAPS – RESUBDIVISION/LOT ALTERATION MAPS –**
 - a. **7 COPIES** – Drawn by a licensed land surveyor on paper. If maps are larger than 11 x 17, then a reduced copy must also be submitted.
 - b. Must show existing and proposed lot lines along with addresses and new lot numbers (see attached example). Must also illustrate all existing and any proposed physical features on the property (i.e. driveways, walkways, retaining walls, fences, etc.)
 - c. Must also contain a location map for the subject property.
 - d. Please have your land surveyor contact the Onondaga County Health Department at 315-435-6600 prior to drawing your resubdivision/lot alteration map for map requirements.

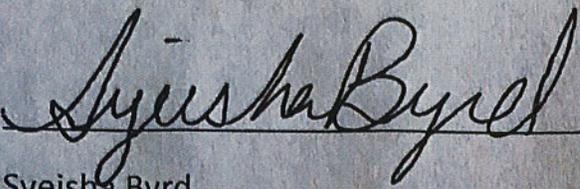

***Please note that if referrals are necessary for this application, additional copies of all required materials will be requested.**

Short Environmental Assessment Form

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information			
Name of Action or Project: Resubdivision of a vacant parcel with a single-family residential parcel			
Project Location (describe, and attach a location map): 505 and 507 Second North Street in Syracuse NY between Lemoyne Ave and Bear St			
Brief Description of Proposed Action: Applicant intends to combine a vacant lot with an occupied parcel. Applicant wants to expand her yard and in the future, once she has secured funding, relocate her driveway and construct a new garage for off street parking. The applicant wants to increase the value of her property. This fulfills part of the mission of the Land Bank by putting the property back into productive use. In addition, the property will return to the tax roles, increase surrounding property values and improve the entire neighborhood.			
Name of Applicant or Sponsor: Greater Syracuse Property Development Cp		Telephone: 315-422-2301 E-Mail: tluckett@syracuselandbank.org	
Address: 431 East Fayette Street, Suite 375			
City/PO: Syracuse		State: New York	Zip Code: 13202
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.		NO <input checked="" type="checkbox"/>	YES <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:		NO <input checked="" type="checkbox"/>	YES <input type="checkbox"/>
3. a. Total acreage of the site of the proposed action? _____ .41 acres b. Total acreage to be physically disturbed? _____ 0 acres c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ .41 acres			
4. Check all land uses that occur on, are adjoining or near the proposed action:			
5. <input checked="" type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify): <input type="checkbox"/> Parkland			

5. Is the proposed action, a. A permitted use under the zoning regulations? b. Consistent with the adopted comprehensive plan?	NO	YES	N/A
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels? b. Are public transportation services available at or near the site of the proposed action? c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: N/A resubdivision only _____	NO	YES	
	<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places? b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency? b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	

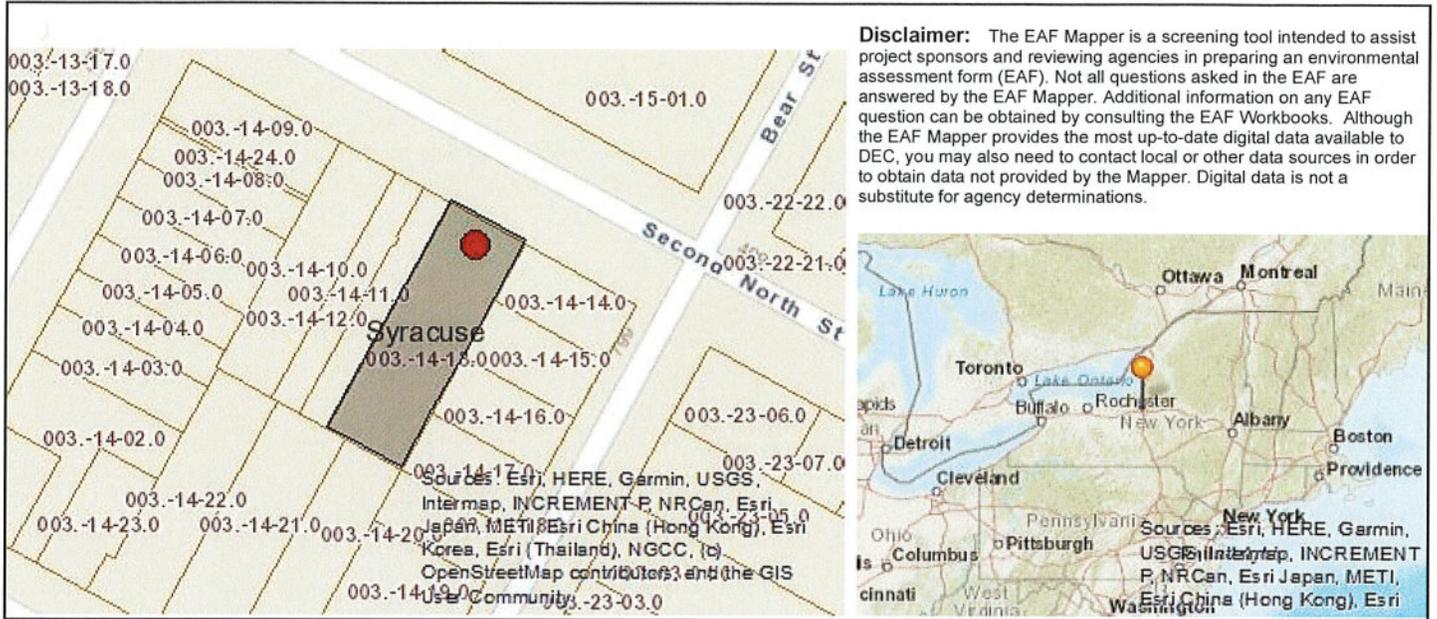

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:		
<input type="checkbox"/> Shoreline <input type="checkbox"/> Forest <input type="checkbox"/> Agricultural/grasslands <input type="checkbox"/> Early mid-successional <input type="checkbox"/> Wetland <input checked="" type="checkbox"/> Urban <input type="checkbox"/> Suburban		
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
16. Is the project site located in the 100-year flood plan?	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
17. Will the proposed action create storm water discharge, either from point or non-point sources?	NO	YES
If Yes,	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. Will storm water discharges flow to adjacent properties?	<input type="checkbox"/>	<input type="checkbox"/>
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?	<input type="checkbox"/>	<input type="checkbox"/>
If Yes, briefly describe:		

18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?	NO	YES
If Yes, explain the purpose and size of the impoundment: _____	<input checked="" type="checkbox"/>	<input type="checkbox"/>

19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?	NO	YES
If Yes, describe: _____	<input checked="" type="checkbox"/>	<input type="checkbox"/>

20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?	NO	YES
If Yes, describe: _____	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Re: 505 and 507 Second North St. Resubdivision

Dear Jeff,

Enclosed please find the Greater Syracuse Land Bank's application for the resubdivision of 505 and 507 Second North Street in the City's Washington Square neighborhood.

To support our application, please find the attached information:

- Application for Resubdivision/Lot Alteration
- Syeisha Byrd Signature
- Short EAF
- Resubdivision Map (7 copies + reduced copy will be mailed to you by Mike McCully)
- Site Plan (no changes other than fencing)
- Policy on Sales of Nonbuildable and Buildable Lots Requiring Subdivision

The Land Bank demolished a dilapidated vacant house at 507 Second North Street in January of this year. The resultant vacant lot is long and narrow measuring 24.75' x 198'.

There is very little privately financed infill construction happening in the City lately; most new construction is subsidized and completed by affordable housing developers like Home HeadQuarters and Housing Visions. These groups have expressed to us that it is virtually impossible for them to construct new housing that meets modern demands, including off-street parking, on lots with less than 40' of frontage. New construction is therefore not an option on this narrow parcel.

When we do sell these as side-lots, we require our buyers merge them with their adjacent property so that the lot doesn't become 'orphaned' again at a later date, so buyers will have an easier time in the future obtaining fence permits, and in some cases so that they will be allowed to use the lot for off-street parking. In this case, it will enable Ms. Byrd to obtain a fence permit to enclose her enlarged yard. In the future, perhaps five or so years from now Ms. Byrd would like to relocate the driveway to the eastern side of her house. We believe this resubdivision is in the best interest of the neighborhood and the City.

Please let me know if you require any additional information or documentation to facilitate your review of this request.

Sincerely

Terri Lockett
Program and Data Manager/Neighborhood Planner

Re: Land Bank's Policy on Sales of Nonbuildable and Buildable Lots Requiring Resubdivision

NOTE added 2/6/17: It has always been the Land Bank's policy to dispose of nonbuildable lots through sale to a neighbor for a "side lot," since these lots are not otherwise desirable for infill development (especially when considering the Land Bank's inventory of buildable lots available for infill), and to require resubdivision at the time of sale for reasons outlined later in this memo. The rest of this memo restates a letter sent in August 2016 explaining a shift in policy toward also selling many buildable lots for "side lots" since even our supply of buildable lots and properties that we are strategically land banking for new development exceeds near-term demand.

On July 11, 2016 I attended a public hearing for one of the lot mergers being supported by the Land Bank and explained that we planned to make a change in our policy regarding side-lot sales. When the Land Bank first got started we decided only to market nonbuildable vacant residential lots for side-lot sales, thinking that we should retain the buildable lots for future infill development. We noted that we might deviate from this if the neighboring property did not have a driveway, if the buildable lot was a single lot on a busy street where construction of a lone new single-family house wouldn't be likely, or if there were some other extenuating circumstances that warranted selling a buildable lot.

By August 22, 2016 we decided we needed to shift this policy and I sent this new policy to the Planning Commission in the form of a letter. In addition to the prior paragraph, the letter, dated August 22, 2016, continued:

As time has gone on, we amassed a large inventory of both buildable and nonbuildable vacant residential lots and have frequently been approached by neighbors wanting to buy the lot next door to provide more open space and more defensible space for their family or for their tenants to enjoy. Many have been confused by our distinction and annoyed that their neighbor could buy a 33' lot but they couldn't buy a 40' lot. After some discussion with the Land Bank Citizens Advisory Board we thought it was worth revisiting this policy. The Land Bank currently owns 135 buildable and 117 nonbuildable residential lots. We expect to acquire nearly 1,000 more vacant lots in the coming 2-3 years. These will provide plenty of opportunities for site-assembly to facilitate large infill projects and for us to flag and hold strategic sites for infill opportunities. However, we have many buildable lots that are not likely places for new construction in the medium-term (the next 20-30 years). We are committed to working with the City's Dept. of Neighborhood and Business Development to locate blocks where we should assemble land and blocks where we

should be land banking individual buildable lots, but it is not realistic to hold every buildable lot in the hopes that it will support infill development.

We plan to land bank many lots for strategic infill, but to start marketing other buildable lots as side-lots. In these cases, we want to require our buyers to merge those lots together with their adjacent property just as we have done with other side-lot sales to date. Our hope is that over time the real estate market in the City will shift and there will be increased demand for infill construction. When that time comes, the purchasers who bought side-lots from the Land Bank could have the opportunity to split those lots off again and sell them. In the interim the new owners will assume responsibility for these properties' maintenance and pay taxes on the land, helping the Land Bank and the City (our biggest funder) to avoid those expenses. It will also give these homeowners more control over their immediate surroundings and more defensible space, the ability to install off-street parking if they have none, give them more recreation space, enhance the value of their property, and enable them to more easily obtain permits for fencing or other improvements. This will also help to stabilize and enhance the property values in the neighborhood.

These parcels are already vacant and not likely to be built upon any time soon. These blocks illustrate a history of disinvestment and demolitions that have plagued many of our neighborhoods for decades. The gaps in the streetscape are already there. Legally combining the lots raises serious concerns about de-densifying City neighborhoods, but unfortunately these blocks have already been de-densified. The Land Bank works to mitigate these trends by proactively taking title to abandoned properties, engaging in preventive maintenance, and attracting private investment to renovate the remaining buildings. We have sold over 320 properties so far and are leveraging over \$14 million in private renovation investment. Many existing structures can be sold for renovation in the short-term. Since infill development isn't likely in the short-term, the vacant lots require interim stewardship and we believe that in many instances the neighbors are best suited to perform that task. They can care for these lots better than the Land Bank can on our routine schedule, since they are there every day. Allowing our buyers to erase a lot line and merge the two properties will also help them to more easily obtain any necessary permits and will result in them receiving one tax-bill for the combined property; making them less likely to let the lot go delinquent and end up back in foreclosure. We do not believe that resubdivision exacerbates the existing challenge of de-densification, the visual reminders of which will remain whether or not the lots are merged.

The letter then summarized the particular circumstances surrounding two properties that were on your agenda that night. In the future, each resubdivision application will be accompanied by this memo and a letter from NEHDA or the Land Bank providing additional context for the specific properties on your agenda. The letter continued:

We hope that the Planning Commission will support this policy shift. Our requirement of buyers to resubdivide upon purchasing a side-lot involves significant up-front expense to obtain a resubdivision map from a licensed surveyor and we do not want to encourage our buyers to obtain these maps if the resubdivisions are not likely to be approved. Please feel free to contact me directly if you have questions about this policy or any other Land Bank operations. My direct line is 422-2302.
